第五部分 书面表达

(一)

One possible version:

Hello, boys and girls!

I'm on duty today. I'd like to say something about our autumn sports meeting held last Wednesday.

As you know, about two thirds of us joined in the sports meeting. We did our best. Zhang Mei won the first place of the high jump. Li Weiping was the second in the boys' 100-metre race.

And the most exciting event was the boys' 200-metre relay race. When our PE teacher shouted, "Ready? Go!" All the runners ran very fast and they were neck and neck for the first 100 metres. Wu Xiaolang from our class began to run faster and faster. He was the first to pass the stick onto Liu Peng. Liu ran even faster. At the end of the second lap, the other runners are left far behind. So we won the relay race easily.

Our headteacher spoke highly of our performance. We were all very happy that day.

My present days

Now I'm having exams. At the beginning, I felt a bit nervous, but now I'm very confident. I believe I can pass it because several days ago, I was busy preparing for the coming exams. I did a lot of exercises given by teachers in and out of class day after day in order to get a good result. Though I felt tired, I think it's rewarding.

After exams, no matter what the result is, I'll be happy. I have tried my best. That's enough. In a few days, I'm going to have a good rest. My mother always tells me that the man who knows how to relax can learn well. I'll go sightseeing, and then I'll carry on studying hard!

(三)

One possible version:

Here I'd like to say something about Daming, one of the best students in my mind. You may feel surprised and wonder why. To some students, Daming is not best at his study. He is naughty, and sometimes even not well-behaved. But have you noticed Daming has carried the lunch boxes for us for three years? It is also Daming that makes the computer work whenever there is something wrong with it in class.

So it is easy for a person to do one kind thing, but keeping doing kind things for others is quite difficult.

One possible version:

Compared with the other schools, we are very lucky that we have more chances to attend different kinds of after-class activities. If you are good at sports, you can go to play basketball or football. If you have special hobbies like drawing, singing and dancing, you can be a member of interest groups. Computer is the most popular. For me, I like learning English, so I go to the English corner every Wednesday afternoon. It is really fun when we do something we like.

But it is a pity that the after-class activities last only one hour from 4:50 pm to 5:50 pm each time. How great it will be if we are given one more hour to do our favourite things!

(五)

One possible version:

Computer and I

Last year my parents bought me a computer for my sixteenth birthday. I had been longing for a computer for quite a long time, so you can imagine how happy I was to finally get one. My mother said since I was doing well both in school and at home, she and my father felt I deserved it. They hoped I could put it to good use.

Since I have a computer now, I don't have to go to the library when the weather is bad. I can find the information I need on the Internet, so I can do my study

at home. Furthermore, I can keep in touch with my friends by email, which is faster and cheaper than ordinary mails. So you can see that a computer is a very useful tool for a student like me.

One possible version:

Our school is like a beautiful garden. When you come into our school, you can see there is an avenue straight to the teaching building. On both sides of the avenue there are tall trees. And on each side of it there is a flower bed. Flowers are coming out now.

You can see an Audio-visual room on your left, too. To the west of the Audio-visual room, there is a building among the tall trees. That is our library. And in the southeast of the school yard you can find a big hall. Behind the teaching building is a playground, to the west of which there is a swimming pool.

What do you think of our school? It is a beautiful and nice place for study, isn't it?

One possible version:

Dear Robert,

I have a lot of things to do after school. Every Tuesday, I go to drawing classes. I enjoy drawing pictures. I have been a member of a painting club for 3 years. I dreamed of being an artist in the future.

Besides, I go to a children's hospital every Saturday so that the children with AIDS in hospital can be given a lot of help. In order to make the children happy, I am used to singing, dancing and making faces. When they feel painful, I always give them a lot of encouragement and tell them to be strong. The children make me know how to appreciate my own life.

Do you want to join me and help the children in hospital together?

Please write to me and tell me about your life after school.

Yours,
Zhang Hai

The most unforgettable trip

There was an interesting trip that I couldn't forget.

When I was eleven years old, I went to Xishuangbanna with my family. There were 13 peoples living there and they each had many different kinds of customs and hobbies. They all attracted me and I had a try. Then I felt a little tired.

Nowhere was better than the big old forest when you want to have a rest. It was far cooler than the outside because the green trees kept out that burning sun like a huge umbrella. Walking slowly, I felt both my heart and body relaxed and quiet. I could see nothing but the lovely green plants. I could hear nothing but the singing of the birds and the sound of the running water. At that moment, I threw away my sadness, busyness except for comfortable feelings.

From that, I know it is such a good thing to come back to the nature. And it is quite important to make the people who are busy in man-made world know how happy they are if they lose themselves in the beautiful scenery.

As you can see, this is my most unforgettable trip.

My hobby—reading

Books are the wealth of human beings. I enjoy reading very much, because books give me knowledge and make me happy.

After finishing my school lessons, I always choose a book on my bookshelf and enjoy it. Story books tell me what is good and what is bad. History books tell me to make a contribution to developing China. Joke books make me laugh when I'm unhappy. Magazines show me the colourful life of people. With the help of books, I know much more knowledge than I used to.

Books are my best friends. They often help me when I'm in trouble. I love books. I love reading.

Spring Festival

There are some important traditional festivals in China and Spring Festival is one of them. It usually comes in January or February. To celebrate the festival, we Chinese have lots of traditions.

Before the festival, we usually do some preparations. We clean the house to sweep away bad luck. Then we

decorate the houses with paper cuts and paint the doors red which means good luck. Children are busy, too. They are busy playing all kinds of games.

On Spring Festival Eve, people often stay up late to welcome New Year's Day. They watch TV, make dumplings with coins in them. They believe that the one who eats the special dumplings will get more good luck. At mid-night, there are usually fireworks. Children like them a lot. Families get together to wait for the New Year's coming.

On New Year's Day, people usually get up early. They put on their new clothes to visit their families and friends. They send presents to them and say "Happy New Year". Everyone is very happy on the day.

Spring Festival finishes at Lantern Festival after fifteen days. It's the most important festival in China. We all like it a lot.

One possible version:

Dear Jenny,

How nice to hear from you! In your email you asked me how to keep healthy. I would like to give you some advice.

As you know, we teenagers grow very fast, so we need plenty of nutritious food, such as seafood. We especially need to eat more fresh vegetables and fruits. You'd better not eat too much sweet food. Also, you should take physical exercise every day instead of studying in the classroom all the time. For example, you can play tennis or swim after school. What's more, having enough sleep is very important. So I advise you not to stay up too late and have at least eight hours of sleep every day. Only in this way can you keep fit.

Best wishes!

Yours,

Li Hua

One possible version:

Dear Tom,

I think your question is well worth answering. It's important for us to get on well with others.

Firstly, you should try to be always helpful. When they are in trouble, try your best to give them a hand so

that you can build friendship with them. Secondly, you should be friendly to them and think more about them. Everyone would like an unselfish friend. Thirdly, you should be honest to them and trust them. Remember others will give you the same that you give to them. What's more, generosity is also important. If you do so, you will be more popular, and your school life will be more interesting. So it's very rewarding.

By doing as what I told you, I'm sure you will have many real friends.

Yours,

Li Dong

How to protect our environment

Hello, everyone! Today I would like to say something about how to protect our environment.

As we all know, our environment is very important to us. In fact, I'm sorry to find that some of us haven't realised this. It is common that lights are left on though nobody is in the classroom. Water is badly wasted. What's worse, some students even feel it enjoyable to carve or draw on the desks and chairs, and litter about wherever they go. During our breaks, it's always too noisy.

To some extent our environment is just like our life. It's our duty to protect our environment. So we should try to do more to make the difference. For example, make sure that lights are turned off when we leave our classroom. Care about the public things as well as you care about your own. Put the waste things into the dustbin. Try to talk in a low voice in public.

Of course there's still much more we can do to protect our environment. Let's work together to make a contribution to a perfect environment for us all.

One possible version:

Dear David,

I am glad you will come to Beijing to learn Chinese.

As China becomes stronger and stronger, it has attracted more and more people to live here. Because of this, learning Chinese is becoming important and useful for the foreigners who want to live in China. I think Chinese will be a little difficult for you to learn because it is quite

different from English. But please don't be worried. Whenever you are in trouble, I will give you a hand.

First I think it is important to do more listening and speaking. Watching TV and listening to the radio are good ways for you to learn Chinese. Having a talk with a Chinese will also help you a lot.

Then you should do some reading and writing practice. Chinese characters are very beautiful. We Chinese are all proud of them. Just believe in yourself. I think you can learn Chinese well.

Hope to see you soon in Beijing.

Yours,
Wang Ming

One possible version:

Notice

Next Sunday we'll visit Xinghai Park. There's something important you need to know.

First, we'll meet at half past eight. You'd better come on time, or we won't wait for you. We'll meet at the school gate.

When we're at the park, we need to keep the park clean. You can't swim in the sea because it will be a windy day next Sunday, but you can take photos. At noon, we'll have a picnic there. You have to take food with you. And the most important thing is to keep the

park clean.

If you have other questions, you can ask the teacher.

(十六)

One possible version:

Dear Jim,

I'm glad to receive your letter.

I'm sorry to hear that you have so many problems in learning English. But it doesn't matter. Things will be better sooner or later.

Remember, English is one of the most widely used languages in the world. It's important in people's work and even in their daily life. So you shouldn't give up learning English. I would like to tell you the way I study English. Maybe it's helpful to you.

Listen carefully in English classes and take notes and remember to review them after class. Then you should try to speak English as much as possible in your daily life. You may go to the English corner in your free time to practise speaking English with foreigners. And after finishing your homework, you can practise the listening part by listening to the tapes and try to follow it.

I hope these ideas can help you improve your English. Best wishes to you.

Yours,
Bob
