Me and my after-class course

In my school, there are many kinds of after-class courses. I chose DIY because I like making things. I have this course every Wednesday, Thursday and Friday afternoon. Mr Green is our DIY teacher.

At first, we learned to make some simple things. Day by day, we learned to make something more complicated. We even learned to decorate our house, repair bikes and make furniture!

I like this DIY course because I get a lot from it. I have not only made many friends who have the same hobby but also learned some useful skills. What's more, this course brings me great pleasure and a feeling of success.

One thing I will do for my parents

I have made great progress in the past three years. Now I want to do one thing for my parents.

As we all know, our parents do everything for us. They gave birth to us, raised and helped us. In return, I also want to do something for my parents. As the only child in my family, I know how much effort my parents put into taking care of me. I think it's my duty to do the housework for the family. I can't cook, but I can always help my mum wash the dishes. In the evening, I will make beds for them before they go to sleep.

This is what I want to do for my parents. By doing the housework for them, I hope to make my parents happier.

Changes in people's lives

Great changes have taken place in people's lives in the past 20 years.

In the past, people kept in touch with relatives or friends mainly by sending letters. They would listen to the radio for news and other information. Children used to go to school by bicycle. Big families had to share small rooms.

Now people can talk to others by telephone or on the Internet at home. When they are free, they watch the news and other programmes on TV. Some families are rich enough to send their children to school in their own cars. More and more people live in big and bright apartments with several rooms.

In a word, people live better than before.

Dear Jack,

I'm glad to hear that you are coming to Dalian. While you are staying in Dalian, I plan to take you to Dalian Forest Zoo. Before visiting it, I'd like to introduce something to you.

Dalian Forest Zoo lies in the south of Dalian. It is very big. If you walk in it, you'll be attracted by different kinds of animals, such as elephants, wolves, lions and many other animals which we can't name. And remember you can't walk up to the animals or feed them, or they might hurt you. In addition, you'd better take something to drink and eat, because it may take you a long time to enjoy all of them. At the same time, pay attention to protecting the environment.

I'm looking forward to your coming.

Yours,

Daming

Module 5

五、40. One possible version:

This morning, we took a school trip in the mountain. We had been looking forward to it for a long time, so all of my classmates were very happy.

While climbing the mountain, we found Lucy was lost. So we all stopped and sent two boys to look for her. In fact, she was left behind because of her foot problem. Her foot hurt because she wore uncomfortable shoes. It was dangerous to be left alone in the mountain. Luckily, she was found safe. When we climb the mountain, we should wear comfortable clothes and shoes. If we are in trouble, we should call for help immediately. The most important rule is: Stay together, and never be alone in the mountain.

It is really an exciting and meaningful trip for us.

Dear John,

I'm glad to get your letter and give you some advice. As you know, chopsticks are mainly used for Chinese food, so you'd better get some practice before the dinner. As for the present, you can take some fruit or a bottle of wine. It's impolite to go to the dinner without anything.

There are many dishes. Take a little of everything and then have some more of the things you like. There is another difference about serving food. The plates are usually placed in the middle of the table for everyone to share.

I hope the advice above will be helpful to you.

Yours,
Li Lei

Nowadays, with the rapid development of our country, English has become more and more important to everybody. As the most common language in the world, it can help us to make friends and communicate with foreigners. And it is also helpful for our future job and life.

I am good at English. Talking of my ways of learning English, I think watching English films is the best one. Because you can watch and listen at the same time. Also, the interesting plots can attract you all the time. It can't make you bored or tired. What's more, to find a partner to practise speaking English regularly is very necessary.

Just express yourself in English, dear friends. Learning a foreign language requires a certain effort, doesn't it? As long as you believe yourself and never give up, you can reach a high level of English and make great progress.

Module 8

Dear teachers and friends,

I am very happy and proud to be chosen to speak here.

Time flies, and our junior high will be over soon. The last three years are very important to me. Thanks to our teachers, I have learnt a lot of knowledge. I also need to say "thanks" to you, my dear classmates. You have given me such a happy time. I still remember the first day we met, the relaxing school journey and the basketball match that we won together. The beautiful memories will be in my heart forever.

But we have to face the real life. I hope to finish my education in a good high school. And I believe we will all have a good life in the future. We will meet new teachers and make new friends. I hope when we get together again some day, everyone can say "I am living a happy life" to others.
