### 辽宁省 2023—2024 学年度第二学期期末 模拟试卷（一）

#### 45. One possible version:

There are different kinds of after-school activities in our school. Some students are interested in voice acting in English. Some students enjoy sports. We also have some special interest groups, such as drawing and singing. These activities play important roles in our daily life. They can not only bring us pleasure and friendship but also help us learn new skills.

The sign-language dance is the most popular after-school activity. It's also my favourite one. I've learnt to dance *Day Day Up* and *Together for a Shared Future* so far. Would you like to dance together? Let's try to do these colourful activities together and overcome the difficult time together.

### 辽宁省 2023—2024 学年度第二学期期末 模拟试卷（二）

#### 45. One possible version:

I have always dreamed of being a radio presenter. As a little girl, I often sat close to the radio, losing myself in the wonderful stories and the beautiful voices of presenters. Being a radio presenter can not only make myself happy but also bring enjoyment to others.

Now, I have volunteered to work at my middle school radio station. I talk about school life and share my favourite articles and music twice a week. I'll still make an effort to realise my dream. I'll read more books and try to practise pronouncing the words more beautifully. I believe that nothing is impossible if I put my heart into it.
