My Past Life

I was born in Changchun, a city in the north of China 10 years ago. I had a wonderful time there. I wasn't bored in Changchun at all, because there were lots of things to do. There were many stores, movie theatres and skating clubs. My home wasn't big but comfortable. Behind the house there was a big garden with lots of trees. It was great to play there. There were lots of children in my neighbourhood, and many of them were my friends. I really miss them. One day I will go back to see them again.
